

# Oh Blessed God lyrics/chords

B E A, B E A

the fresh spring of everything pouring from your words, "let there be..."  
the fleshed life of woman and man dancing in the dawn of eden  
A richness of plenty for all the earth a destiny  
your-voice walking with them your-song's cultivating rhythm

(chorus)

oh blessed god the saving one  
lord, hear our cry to you  
your kingdom come your will be done  
life pouring out of you

B E A, B E A

now we fall like trees for missing you  
and miss the kiss when justice and peace meet too  
along the hungry and the thirsty streets  
we see you in the people we meet

our eyes are empty, our stomachs 'full  
how long, oh lord, 'til your world's made whole?  
your-voice walking with them  
our songs, so far from heaven

oh blessed god...

(bridge)

Put a song in me like you people the streets of history  
Turn me upside by the heart I find in each street I'm walking  
put clothes on shame teach us to sing forgive our sins 'salvation ring  
'salvation ring

(chorus)

oh blessed god...
